TECHNICAL DATA SHEET
CIIFROL VACUUM PUMP OIL
High Performance Vacuum Pump Oil

DESCRIPTION
Ciifrol Vacuum Pump Oils are specially designed vacuum pump oils with very low vapour pressure and high thermal stability. These oils are suitable for use in all mechanical vacuum pumps and are also used as pressure fluids in oil diffusion pumps, as a sealant for mechanical pumps, as a lubricating material for the rubbing parts of vacuum devices and for filling liquid vacuum meters.

PERFORMANCE STANDARDS
Ciifrol Vacuum Pump Oils meet GOST: 23013-78 specification for vacuum pumps oil and can also be recommended for high vacuum producing diffusion pumps. Its low vapour pressure and other unique characteristics make it especially suitable for use in most high vacuum pumps.

SPECIFICATION

S.NO.	CHARACTERISTICS	VALUES
1	Colour	Natural
2	Kin. Viscosity @ 50 Deg C in cSt	50-58
3	Viscosity Index	95
4	Flash Point COC	220
5	Pour Point	-12

The information provided in this Technical Data Sheet is based on our best knowledge and experience and is intended as a general guide. The technical data represents typical values and may vary depending on product batches, operating conditions and application methods.
Users are advised to refer to the latest Technical Data Sheet and Safety Data Sheet (SDS) for applicable product information.
Users are advised to evaluate the product for suitability for their specific application and to follow recommended handling, storage and safety practices. CIIFROL accepts no responsibility for any loss, damage or injury resulting from improper, unintended or abnormal use of the product or conditions beyond its reasonable control.
